PROJECTS

Swiggy Homepage Clone

- **Description:** Built a responsive and visually accurate clone of the Swiggy homepage, focusing on front-end development best practices and modern design principles.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap.
- **Key Features:**
 - Designed a clean and structured layout inspired by the original Swiggy homepage.
 - Ensured responsiveness to provide a user-friendly experience across devices.
 - Applied Bootstrap for efficient styling and layout creation.

Responsive Portfolio

- **Description:** Developed a responsive personal portfolio website using React to showcase projects and skills with an interactive and user-friendly design.
- **Technologies Used:** React, HTML, CSS, JS, Bootstrap, Tailwind CSS.
- **Key Features:**
 - Created a clean and intuitive design to highlight personal achievements and projects.
 - Implemented responsive design for optimal viewing on various devices.
 - Integrated smooth navigation and interactive components using React.
